

LIQUOR CASES MAY COME INTO PROBE

Daugherty Inquiry Promises
Startling Developments

Washington, March 12.—Miss Roxie Stinson, divorced wife of Harry M. Daugherty's confidant, Jess Smith, who committed suicide a year ago, again was the star witness today before the Daugherty investigating committee.

Senators not only sought to draw out details of her story of yesterday, in which she included some astonishing insinuations about Smith and Daugherty, but made an effort also to establish new lines of inquiry involving liquor cases and other matters that were pending in the justice department.

Will Call McLean.
As a result of her testimony, Senator Wheeler of Montana, the committee prosecutor, announced he would call Edward B. McLean, publisher of the Washington Post, and Mal Daugherty of Ohio, the attorney general's brother.

Among other things, committee men want to know whether there was any attempt on the part of friends of the attorney general, as has been suggested in information reaching the committee to avert Miss Stinson's appearance on the witness stand.

Before the committee met today Attorney General Daugherty issued another statement declaring the investigation could be fully and finally disposed of in a week or 10 days, if only "pertinent inquiries" were made.

He also wrote Chairman Brookhart protesting against issuance of committee subpoenas for Gaston B. Means and Thomas H. Feltner, on the ground that they would receive immunity under indictments pending against them at New York.

The letter was laid before the committee, but some members were disposed to insist upon hearing Means and Feltner. They are under indictment in connection with the Glass-Casket stock marketing case, and their testimony is desired in connection with transactions of Jess Smith.

The attorney general's statement follows:

"I am adhering to my policy of saying nothing for publication for the present regarding the alleged investigation of the official action of the attorney general, and the department of justice. I have said nothing for publication upon that subject since leaving for Chicago on February 27.

"My attorneys are giving their attention to the matter to the extent that they are permitted to participate in the alleged hearing.

"If pertinent inquiries regarding the department of justice and the official acts of the attorney general only were made and competent testimony taken, the whole matter could be fully and finally disposed of in a week or ten days at the farthest. Anything regarding the investigation must be given out by my attorneys, as I am occupied constantly with my duties here."

Other information sought from Miss Stinson today related to \$65,000 in Liberty bonds which Smith was said to have had here in the safety deposit box. Committee members said they were prepared to produce a witness as to the source of the stock.

The Pure Oil company stock transaction referred to yesterday by Miss Stinson also is expected to produce interesting developments. Senators said that they understood Charles G. Dawes, former director of the budget, and Howard Manning of Ohio were interested in the company.

Rotary Head Advises Members' Vaccination

Members of the New Britain Rotary club, were advised by President Fred O. Backliffe at the noon meeting today, to be vaccinated as soon as possible, and to have their families vaccinated, to help the board of health stamp out the smallpox epidemic in the city. Mr. Backliffe said the announcement was made by request of a physician.

Next Thursday evening local Rotarians will motor to Milford to help the Milford club celebrate charter night.

The address today was delivered by James F. Slater, assistant to C. L. Harbo, general manager of the N. Y. N. H. and H. railroad. Mr. Slater quoted statistics to show that operating expenses of railroads are mounting while the revenue shows a steady decrease.

It was announced that Guy Gundiger of Philadelphia, international president, will be one of the speakers at the spring conference next month.

Overseas Concert From London to United States

A notable attempt in the direction of world radio broadcasting will be tried tonight by British broadcasting stations, when they will attempt to get a program of dance music into receivers in the United States.

It is probable that the attempt will be made between 8 and 9 o'clock in the evening, eastern standard time, and there was some talk of having the broadcasting stations shut down for a period in order to ascertain whether or not the program comes through. This, however, probably will not be done.

Several broadcasting stations on the British Isles will be linked together for the test and a series of mappy American jazz selections will be hurried into the ears of Paul Whiteman worshippers. The program will be played from the Savoy hotel, London.

SCHOOL BOARD QUESTION BEFORE FINANCE BOARD

Meeting Called for Next Week—
Mayor Feels Program Should Include School on Clinton Street.

The board of finance and taxation will meet Monday to give consideration to the school committee's building program for which a bond issue of \$475,000 is being sought.

In addition to the committee's recommendations, Mayor A. M. Paonessa feels that provision should be made for a new school on the Vets property on Clinton street and he will bring such a proposal before the board of finance.

If the finance board approves, a recommendation will be made to the common council after which the city meeting board will be called to act on the bond issue.

The finance board will also probably discuss water rates.

Railroad Offers to Give Use of Train

Waterbury, March 12.—Superintendent J. J. Snaveley of the Waterbury division of the N. Y. N. H. & H. railroad made an offer considered most unique at today's luncheon of the members council of the local Chamber of Commerce. Mr. Snaveley is a member of the clean-up committee of the council. He told of the great number of tin cans, old bed springs and discarded baby carriages that had been thrown out from tenement houses along the railroad's right of way and which had been cleaned up by railroad employees. The clean-up had been made two weeks ago, he said, and now conditions were worse than before. Superintendent Snaveley offered the use of a special train for an inspection by the members council of back yards along the railroad tracks in this city and vicinity. The council voted to accept the offer and the trip of inspection will be made after the council's next meeting.

PRICE OF GAS REDUCED

New Britain Gas Light Co. Announces
Reduction of 10 Cents Per 1000
Feet Effective This Month

Announcement was made today by the New Britain Gas Light Co. that the price of gas will be reduced 10 cents per 1000 feet after the collections are made the latter part of this month.

It is estimated that the reduction will amount to about \$40,000 a year less in the cost of gas to the people of New Britain and vicinity.

The directors of the company have found it possible to make the reduction as a threatened coal strike has apparently been averted, assuring a steady supply of one of the necessary commodities used in making gas, at a uniform price.

Howard P. Dunham, state insurance commissioner, gave an address on the subject of licensing of insurance agents. Donald C. North of New Haven, president of the state association, spoke about association affairs. Music was furnished by the Chief male quartet.

**Man Held After Girl
Tells Story to Police**
William Spina of 23 Farmington avenue was arrested this morning by Detective Sergeant William P. McCue and Sgt. Michael Flynn on a charge of indecent assault upon a 15 year old girl. The girl was found walking on Farmington avenue about 2 o'clock this morning by Sgt. Flynn and was questioned as to the reason for her being out at that time. She did not give a satisfactory explanation and was questioned by Sgt. McCue this morning when she told of the alleged assault. Spina was arrested at his home and will be arraigned in police court this morning. The assault was committed in a vacant tenement on Farmington avenue.

Deaths
John E. Nafey
John Ellsworth Nafey of 186 Maple street died last evening at his home following a shock sustained last Sunday. Mr. Nafey was a resident of New Britain for the past 40 years, coming here from New Brunswick, N. J., where he was born. He was 70 years of age and was employed for 25 years as a bookmaker for the Russell & Erwin division of the American Hardware corporation. Two years ago he retired. He was a son of the late John and Ann Eliza Danbury Nafey and a direct descendant of Garrett Nafey, who fought in the Revolutionary war.

He's Happy

W. B. Cochran, negro, San Francisco auto washer, fell for a glitzy-tongued land salesman's chatter. He paid \$800 for 82 acres in Texas. But Lady Luck played him false. It was all sand. One day, though, an oil man came along. He offered Cochran \$350,000 for that sand. Now Cochran plans to keep on laundering toilets. Royce for awhile, then start out to have a good time for himself.

WALL STREET STOCK EXCHANGE REPORTS

New York, March 12.—Overnight announcement that American bankers had given a credit of not less than \$100,000,000 to the French government gave a strong tone to opening prices in today's stock market. General Electric advanced 2 points; Otis Elevator 1 1/2; Union Pacific 1 1/4 and Norfolk & Western 1, while most of the standard industrials improved fractionally.

General Electric gained 4 points and Otis Elevator 2 1/2. Gains of a point or so were recorded by U. S. Cast Iron Pipe, Baldwin, American Can and Crucible Steel. New Orleans, Texas & Mexico and Brooklyn-Manhattan Transit preferred each dropped about a point.

Noon-Morning trading which had been rather lethargic in character, was enlivened by the inauguration of dividends on Southern Railway common, that stock immediately jumping 4 points to 55, a record high, on heavy transactions. New 1924 highs were established by Woolworth at 332 3/4, up 1 1/2; Fisher Body at 215, up 5 1/2; Magna Copper at 33 3/4, up 1 1/4; and New York Dock at 25 1/4, up 1 3/4. The money available for stock market purposes, as reflected in the renewal rate of 4 per cent for call funds, also encouraged operations on the long side. Buying of Dupont, which advanced 3 3/8 points, followed the reported accumulation of General Motors by banking interests, Dupont being the largest holder of General Motors stock. Strength of Southern Railway helped other rails. St. Louis-Southwestern, Missouri Pacific preferred and Wabash preferred A, each advancing more than a point.

Wall Street 1:30 p. m.—Southern Railway yielded on profit taking after the dividend announcement. Prices did not yield much and when the shorts covered they found stocks rather scarce and bid up several leaders sharply to get a supply notably Baldwin, U. S. Steel and American Can.
